CONCLUSIONS: _____

DESCRIPTION: The Business Function Identifier Profile is designed to help individuals see how they function in any structure. They discern their Primary Function as a part of a team. They understand more about their unique qualities and how to use them synergistically with others. They are made aware of their pitfalls in functioning properly in their Business and the ones that undermine them in teamwork.

The individual learns about all nine of the Business Functions. They are given 3 Keys to working with each Function. They are given knowledge of how to work with others without losing their own unique identity. They are shown how to magnify their ability to be a more effective part of a team. They are given self-empowering information for how to experience dynamic synergy as a part of a team.
